# OUR COMPANY

The harsh climate and fast-growing need for quality indoor environment serve as the foundation behind **INCLEAN**. One of the region's leading HVAC (Heating, Ventilation and Air Conditioning) solution provider to commercial, industrial and government bodies across India and Beyond.

Driven by the mission to achieve total customer satisfaction, **INCLEAN's** committed to offering Turnkey project, superior quality products competitively prices whether it is custom built product or standard product.

**INCLEAN** excels in the field of Air Engineering, we have expertise in field Air engineering like designing & supplying of industrial / commercial Axial Flow Fans, Centrifugal Blowers, Fire Rated Fans, Basement Ventilation fans& Fresh Air units. Apart from these products, we also undertake turnkey projects in the field of Industrial / Commercial exhaust & Ventilation Systems.

**INCLEAN** is providing a complete engineering solutions in the field of ventilation and exhaust and also providing the extensive consulting after analyzing project with proper one window solution . We specialize in custom built HVAC Equipment

## Designing and Planning

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot

## Equipment Planning and Selection

Mercury is the closest planet to the Sun and the smallest one in the Solar System

## Installation and Service Support

Despite being red, Mars is a cold place, not hot. It's full of iron oxide dust, giving the planet its reddish cast

# Quality Policy

## QUALITY POLICY STATEMENT

*AERONOM recognises to maintain the highest quality standards in all activities is the key to our success and reputation. The company is therefore committed to a policy to provide a service which fulfils the requirements and expectations of our customers in all ways and also where necessary meets with regulatory requirements.*

The background image shows an industrial facility with a complex network of pipes, ducts, and machinery. The scene is brightly lit, possibly by natural light from above. A large green semi-transparent rectangle is overlaid on the center of the image, containing the text 'OUR EXPERTISE'.

# **OUR EXPERTISE**

# CENTRALISED COOLING SYSTEM

## Centralised Air Conditioning

Aeronom designs Centralized Air conditioning systems for commercial buildings to serve large spaces ranging from small shops to servers rooms and larger offices to restaurants among others. These systems come in different types but the most popular ones on the market today are the single split, multi-split, Ductable, AHU and other air conditioning. Whichever choice you go for, make sure that it will serve you better.

## Centralised Evaporative System

Evaporative system produces effective cooling by combining a natural process water evaporation with a simple reliable air moving system. Fresh outside air is pulled through moist pads, where it is cooled by evaporation and circulated through a house or building by centrifugal blower. Air washer is supplied by **INCLEAN** in both single and double skin construction with compact less size with multi centrifugal fan design.

# Industrial Exhaust, Ventilation and fume Extration System

INCLEAN provides complete Industrial Ventilation and Exhaust Solution that brings in fresh outdoor air and removes the contaminated indoor air in a workplace, ventilation is used to control exposure to airborne contaminants.

The new innovative design guarantee dust free environment inside the plant, predictable performance , long life expectancy and near zero maintenance.

## Building Ventilation

(Basement Ventilation, Liftwell and Stairwell Pressurisation System)

INCLEAN serves with solution of lift well & stairwell pressurization system which intended to prevent smoke leaking passed closed doors into stairs by injecting clean air into the stair enclosure such that the pressure in the stair is greater than the adjacent fire compartment and also prevent smoke from flowing through an elevator shaft and threatening life on floors remote from a fire. Elevator pressurization is an alternative to enclosed elevator lobbies.

A chef in a white uniform is cooking in a kitchen. The chef is holding a long-handled metal tool, possibly a spatula or a long-handled spoon, over a large, dark-colored pan. A large, bright orange and yellow flame is rising from the pan, indicating that the food is being cooked at a high temperature. The background is slightly blurred, showing other kitchen equipment and a clean, professional environment.

## **Kitchen Exhaust And Ventilation Solution**

To meet the demand of the rapidly growing prepared food delivery market, Aeronom is serving with most effective and efficient solutions to extract all kitchen fumes & smell with supplying fresh air to maintain negative pressurization inside the kitchen premises to enable the chef and its team to work effectively.

# ***INCLEAN SALES & DISTRIBUTION NETWORK***

***INCLEAN offers premium quality air conditioning equipment, and is committed to total customer satisfaction. INCLEAN is proud of its equipments that works efficiently in various geographic locations.***

## AFTER SALES & SERVICES

*INCLEAN, in pursuit of the mission of Total Customer Satisfaction, recognises the After sales department and the operational excellence as one of the key pillars of the success. Our goal is to develop new and strengthen existing customer relationships, winning everlasting trust in **INCLEAN** brand through after sales service that supports customers in a way that exceeds their expectations in terms of quality, capability, delivery and execution.*

*After sales Department is full fledged HVAC service set up that offers you wide range of brand-independent Services and Solutions focusing on your HVAC equipment's optimum performance and reducing the Operating Costs (OpEx).*

***INCLEAN** aspires to be recognised as a high tech service provider who stands differently from the rest by :*

- *Having the best available talent in the region to ensure reliable service and work of highest quality that exceeds customer expectations.*
- *Equipped with the latest tools and instruments, **INCLEAN** field staff ensures the fastest quick service delivery and customer issue resolution time.*
- *Customers support by ensuring consistent stock availability of spare parts that cover all of the equipment.*

*Extended presence and ease of access for the customers by establishing SKM Spare Parts showrooms and channel partners in strategically chosen locations across the region.*

- ***INCLEAN** adopts a partnership approach towards the customers' operational objectives and leveraging the technology of IoT to craft innovative solutions that help customers achieve those objectives effectively and sustainably.*

***Some of the services that **INCLEAN** has to offer are as below***

- Annual Maintenance Contracts.*
- Repairs , Retrofits and Upgrades*
- Equipment Replacement.*
- Duct Cleaning.*
- Controls & Energy.*
- Remote Monitoring – Connect.*
